

Subject Line: The Eagle has Landed...

Did you see this?

Drones are increasingly used to commit crimes or invade unauthorized airspace. Maybe it's a terrorist or some Joe encroaching on someone's private property.

Roll viral video...

Now, eagles are being trained to attack these drones. How bad to the bone is that?

The eagle swoops down and grabs the culprit drone in its talons, then grounds the thing.

Security threat averted! And that got me thinking...

With all the malware on the internet these days, you can't have enough protection on your laptop...

Trojans, viruses, worms, phishing schemes, and on and on like a merry-go-round. Someone is out there trying to ruin your expensive equipment, steal your credit card number, or worse yet, your identity.

You can put an end to these kinds of threats.

Goliath Guard is the most reliable, cost-effective way to safeguard your laptop. With a proprietary algorithm proven to take out the most common forms of malware and featuring industry-leading firewall protection, you can't go wrong.

Have you ever had an unwanted, unauthorized charge to your credit card? Have you been the victim of disruptive malware on your computer? Or worst of all, has your identity been stolen?

Maybe you've been lucky so far. Maybe you haven't yet faced the agony of these headaches. If you've been lucky up to this point, why play Russian Roulette?

Rates have been increasing. In each of the last two years, records were set for identity fraud. Last year alone, 30 percent of consumers were notified of a data breach on their account.

Identity fraud schemes are getting more complex all the time. Nearly \$17 billion was stolen last year.

With Goliath Guard, you will have peace of mind knowing security threats are minimized. Your computer will run smoothly. And, you will keep money in your pocket to spend on fun things.

A 12-month subscription for Internet security is the industry standard. A 15-month subscription is the standard with Goliath Guard. That's 25% more value.
